GETLIT™
LED

For convenient illumination and hydration, our S-Biner GetLit is a revelation - instantly transforming its owner to the life of the party.*

The S-Biner GetLit is two handy devices in one. Its bottle-opener top features a high quality stainless steel carabiner clip with a secure gate closure, so you can easily attach it to a backpack strap, key ring, cooler/tackle box/ski bag handle, zipper pull, belt loop - anything with a loop or D-ring. Simple to unhook and reattach, it's the perfect go-anywhere bottle opener, and with its built-in LED, it's a perfect anytime area light too. One quick press of the thumb activates bright, glowing light (press twice for flash mode), enabling you to see which beverage you're opening and otherwise find your way around when it's dark outside.

***Disclaimer**: Although we can't guarantee "Life Of Party" transformation, informal studies have shown that it happened more often than not to subjects carrying the GetLit at gatherings of thirsty people at night.
