

INOVA® X5®

Made from aerospace grade aluminum with fanatical care, the breakthrough INOVA® X5® features a design so elegant it sits on display at one of the world's great modern art museums. Five LED lamps recessed into the X5's patented stainless-steel head are each surrounded by individual reflectors, creating an unsurpassed brilliant flood beam pattern. New dual-mode functionality provides long hours of either High or Low power light output. Powered by 2-123A lithium batteries, with an amazing 10-year shelf life, the X5's reliable performance makes it perfect for long-term duty.

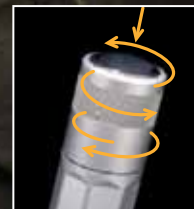

**LITHIUM POWERED
LED FLASHLIGHT**
MAX OUTPUT
31 LUMENS

Anodized Finish: Titanium Color
Model #: X5DM-HT

FEATURES:

- Dual Light Mode Functionality. Features both HIGH and LOW Light Output Modes.
- LED Color: White
- Lumens: High - 31 | Low - 6
- Run Time: High 17 hours 30 minutes | Low 85 hours
- Effective Range (up to): 131 ft (40 m)
- Battery Type: 2-123A Lithium batteries included
- 5 High-powered, energy efficient 50,000 hour LED bulbs
- Aerospace-grade aluminum with high grade anodized finish
- Colors Available: Black and Titanium anodized finishes
- Water-resistant construction and O-Ring seals
- Patented 3 position end-cap switch activates constant and momentary HIGH and LOW power modes and Lockout mode
- Dimensions: (Length): 4.75" (12.07 cm) | (Diameter): 0.87" (2.20 cm)
- Weight: 3.49 oz. (98.93g)
- Try me packaging - allows for lighting demonstration
- Limited Lifetime Warranty USA

Anodized Finish: Black Color
Model #: X5DM-HB

Patented 3 position end-cap switch activates constant and momentary HIGH and LOW power modes and Lockout mode.

Anodized threads provide durability and protection from the elements.

INOVA X5 Individual reflectors surround each of the five LED lamps recessed into the X5's patented stainless steel head.
