THE NEW ESSENTIALS

▲ PROBLEM NO. 39

Bungee cords are often more hassle than help.

SOLUTION: The **Gear Tie** is an epiphany brought to life — a heavy-duty twist tie, available in a variety of sizes, including an extra-large version that's 32 inches long. It's exactly what you need next time you have to bind an extension cord, create a temporary hook to hang wet gear, or close up a huge bag of bread. [[\\$8 for two, ritort.com](#)]
