

STEELIE[®]

HobKnob Kit

Steelie - The world's finest phone and tablet holding system

Make a stand and get a handle on your tablet, e-reader, or other electronic device with the Steelie HobKnob Kit.

With its ingenious magnetic design, the Steelie HobKnob Kit is a fun, innovative way to create both a handle and mini stand for your tablet, e-reader, or other device. Simply peel and attach the Steelie Magnetic Tablet Socket to the center of the back of your tablet or its rigid case. The Steelie Magnetic Tablet Socket Component is a strong, machined aluminum base containing a powerful, circular magnet ringed and centered with flexible silicon and backed with 3M[®]'s VHB[™] foam adhesive tape. The Steelie HobKnob Handle Component - a specially engineered aluminum knob topped with a grippy rubber ball that fits securely around the Magnetic Tablet Socket, attaches to it magnetically, and makes a perfect handle so you can easily share your tablet, show videos, and give presentations without obscuring the screen or fumbling in the process. And, when it's propped on any flat, smooth surface, the HobKnob makes a useful angled stand, in either landscape or portrait, for typing, viewing, reading, or video chatting. As easy to detach as it is to snap on, the HobKnob fits easily in a pocket, and is as mobile as you are.

As an added plus, with the Magnetic Tablet Socket attached to the back of your device, it will magnetically connect to other convenient metal surfaces - refrigerator doors, steel shelving, stove hoods, filing cabinets, lockers, and toolboxes -so you can dock it securely and keep it accessible and viewable wherever you go.

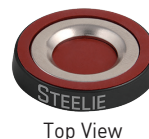

- ⊕ The Steelie HobKnob Kit creates a handle and mini stand for your tablet or other mobile device
- ⊕ Each Steelie HobKnob Kit includes one Steelie HobKnob Handle, one Steelie Magnetic Tablet Socket, an alcohol prep pad, and installation instructions
- ⊕ Steelie Magnetic Tablet Socket features a powerful neodymium magnet and silicon center to provide a strong grip and smooth glide
- ⊕ The neodymium magnet is safe for use with all phones and tablets
- ⊕ The Steelie Magnetic Tablet Socket component features 3M[®] VHB[™] adhesive tape for secure attachment to the center of the device or device's case
- ⊕ 3M[®] VHB[™] foam adhesive tape can be removed without damage to surfaces
- ⊕ Steelie Magnetic Tablet Socket must be attached to a rigid surface
- ⊕ The Steelie Magnetic Tablet Socket will attach to metal surfaces - refrigerator doors, steel shelving, stove hoods, filing cabinets, lockers, and toolboxes
- ⊕ Steelie HobKnob Handle Component can be used two ways:
 - As a useful stand in either portrait or landscape with its non-skid rubber ball
 - As a perfect handle for using the tablet on the go, showing videos and presentations, or even reading your favorite novel.
- ⊕ Components feature high quality 6061 machined Aluminum
- ⊕ Features a steel plate press fit into base of machined aluminum knob for secure Magnetic Tablet Socket retention
- ⊕ Compatible with other Steelie system components
- ⊕ Steelie HobKnob Handle Components and Steelie Magnetic Tablet Socket Components are sold individually
 - Steelie HobKnob Handle - Perfect for when you have multiple tablets in the home or office, but often share the same workspace. Attach the Steelie Magnetic Tablet Socket and anyone with a Steelie HobKnob Handle can use the Steelie Magnetic Tablet Socket
 - Steelie Magnetic Tablet Socket - Ideal add-on purchase for anyone who wants to attach their Steelie HobKnob Handle to multiple devices, or those who just want the versatility of the magnetic option to attach it securely to any metal surface
- ⊕ Dimensions: 1 5/8" (41.3mm) X 1 3/8" (34.9mm)
Weight: 42g (1.48oz.)

Retail Packaging Dimensions:
4.8" H x 4.1" W x 1.7" D
121.9mm H x 104.1mm W x 43.2mm D

The Steelie Magnetic Tablet Socket contains a strong magnet. These magnets will NOT damage your tablet or phone. However, do not place near magnetically sensitive objects such as credit cards, pacemakers or computer hard drives. Steelie assumes no liability for damage to such objects.
