

# TOTAL ECLIPSE™

## MOUNTABLE SELF-LOCKING POCKET CLIP

**This lightweight, mountable, self-locking pocket clip allows you to secure your smartphone to most fabric pockets or waistbands for quick and easy access.**

The mission at Nite Ize is to create innovative, solution based products. Our patented Total ECLIPse is a good example of that commitment.

Sleek, low profile, lightweight, and versatile, the Total ECLIPse is the perfect option for people who want to keep their mobile devices secure and easily accessible on the go. Molded of durable, lightweight carbon fiber composite, our Total ECLIPse is a mountable, self-locking pocket clip that comes backed with a thin strip of 3M™ VHB™ adhesive. Affix it to the back of your smartphone, or almost any lightweight item with a smooth, flat, hard surface - like your form fit smartphone case - and your device becomes instantly "clippable" to woven fabrics up to 3mm thick. Your device will stay securely in place until you unlock it with a simple press of the push button release.

- ⊕ Mountable, low profile, self-locking pocket clip with an innovative push button release
